PROFESSIONAL SUMMARY

Detail-oriented and analytical BCA graduate with hands-on experience in Microsoft Excel, Power BI, Power Query, and data visualization. Skilled in data cleaning, dashboard creation, report generation, and extracting actionable insights from data. Strong problem-solving abilities with a passion for business intelligence and data-driven decision-making. Seeking an entry-level Data Analyst or Business Intelligence role to apply analytical and technical skills.

TECHNICAL SKILLS

Data Analytics & BI:	Microsoft Excel (Advanced), Power Query, Power BI, Data Visualization, Dashboard Reporting, Data Cleaning
Programming & Web:	Python, HTML5, CSS3, JavaScript (Basic)
Tools & Platforms:	Git, GitHub, Microsoft Office, Vs Code
Core Competencies:	Data Analysis, Problem-Solving, UI/UX Design Principles, Critical Thinking, Communication

Projects

Data Analytics Dashboard | Power BI & Excel

- Cleaned, transformed, and prepared raw datasets using Power Query for accurate analysis.
- Built interactive Power BI dashboards featuring KPI cards, slicers, charts, filters, and drill-through functionality.
- Performed data cleaning, data modeling, and data visualization to identify trends and generate business insights.
- Used Excel functions such as Pivot Tables, XLOOKUP/VLOOKUP, IF, SUMIFS, COUNTIF, and Conditional Formatting for advanced data analysis.

Sales Performance Dashboard | Power BI & Excel

- Cleaned and transformed sales data using Power Query.
- Designed an interactive dashboard to analyze sales, revenue, profit, and regional performance.
- Created KPI cards, charts, slicers, and filters for dynamic reporting.
- Generated business insights by analyzing sales trends and key performance metrics.

HR Analytics Dashboard | Power BI

- Cleaned, transformed, and prepared employee datasets using Power Query to ensure accurate and consistent reporting.
- Designed an interactive Power BI dashboard with KPI cards, slicers, charts, and filters to analyze employee attrition, department performance, and workforce trends.
- Performed data modeling and created meaningful visualizations to identify key HR metrics, workforce patterns, and performance insights.
- Generated comprehensive reports and actionable insights to support HR decision-making, improve workforce analysis, and enable data-driven business strategies.

EDUCATION

Bachelor of Computer Application (BCA)

Completed

Dr. B.R. Ambedkar University, Agra

- Relevant coursework: Database Management Systems (DBMS), Software Engineering, Data Structures

Higher Secondary Education (12th)

Completed

SVM, Firozabad

- Focus on Mathematics & Science; strong analytical and quantitative foundation

CERTIFICATIONS & TRAINING

- Data Analytics with Microsoft Excel, Power Query & Power BI
- Microsoft Excel (Advanced): Pivot Tables, XLOOKUP, SUMIFS & Data Visualization
- Power BI Dashboard Development & Business Intelligence
- Data Cleaning, Data Transformation & Interactive Dashboard Design
- Git & GitHub Version Control
